**Make your appointment with bread** ——— Anyone who questions everything and thinks things anew requires a large portion of passion, heart and soul. Only then can bread that is more than simply bread be created. They are lent their own character, a strong personality. With corners and sides. They are as versatile as life itself, just like those who create them. All members of our bread dynasty have one thing in common: they are a true wine quarter original and a strong family.

This affinity with our homeland and genuine craftsmanship are our claim. For that reason, we only work with the best, most inspiring organic producers and organic products. Together with them, we have the vision of creating authentic products that set new standards when it comes to quality. Because they're made by hand. Because they take animals and nature into account during manufacture. Because they're natural and genuine. And because they simply taste better. Bon appetit!

**Coffee** — We took time to roast these coffee beans. Plenty of time. But what does “plenty” really signify? Especially when you consider the amount of time our partners in Guatemala, Peru and El Salvador spend on cultivating and caring for the coffee plants. And how much time will you take to enjoy your coffee?
